MR. ARTHUR N. AGUILAR
President & CEO
National Transmission Company
Quezon City

Dear President Aguilar:

Greetings!

This pertains to the Ancillary Charge that Transco charges the distribution utilities (DUs) which become part of their billings to their respective customers.

We understand that this Ancillary Charge is used to pay for the cost of ensuring a Reserve Capacity in case of a breakdown/shutdown of a power plant supplying electricity.

In this regard, may we know the total collection from this Ancillary Charge of Transco from the time of its operation in April 2003 to December 2008 on a yearly and per grid basis?

This request is anchored on our continuing study of how we can possibly lower our power rates?

We hope this request will merit your immediate and favorable response.

More power and God bless!

Very truly yours,

PETE L. ILAGAN
President
