**DR. ALAN T. ORTIZ**

*President and CEO*

National Transmission Corporation  
Power Center, BIR Road cor Quezon Avenue  
Diliman, Quezon City

**Dear President Ortiz:**

We earlier wrote a letter dated 21 February 2006 which was received by your office last 1 March 2006 bringing to your attention a number of our letters that were not acted upon. For your convenience, the unacted letters are as follows:

- a. 2 January 2006 - requesting data on the following:
  - a.1 Projects - name, project description, amount/cost, locations, winning bidder and whether the cost is financed by internal cash or through loans; and
  - a.2 Name of subtransmission assets sold, amount/cost, names of buyer and terms of payment.
- b. 12 September 2005 - requesting a meeting with Transco technical staff in the charge of the 80-kilometer 138 kilovolt transmission line for the proposed 100-megawatt geothermal plant in Cabalian, Southern Leyte.
- c. 27 June 2005 - request confirmation of Meralco's transmission data and enlightenment on the multi-tiered Transco charges.
- d. 23 May 2005 - inquiry on rate adjustments of Transco and requesting copies of ERC decisions on said adjustments.

We hope that Transco will understand that our persistence on this matter is simply the promotion and protection of the interest of ordinary consumers by ensuring transparency on matters of public interest.

Thank you and God bless!

Very truly yours,

**PETE L. ILAGAN**

*President*
