**MR. HENRY SY, JR.**

*President*, National Grid Corporation of the Phil.  
Quezon Avenue corner BIR Road  
Diliman, Quezon City

Dear Mr. Sy,

Greetings!

First of all, please accept our heartfelt congratulations for your appointment as the new president of NGCP. We are confident that under your leadership consumers can look forward to just and reasonable transmission rates based on the provision of Section 43(f) of the Electric Power Industry Reform Act (EPIRA) and will be transparent in all its transactions in light of the fact that the operations of NGCP is imbued with public interests.

We write also to request for copy of NGCP's contract with Salcon Power Company on the use of both the former Panay Diesel Power Plant and Bohol Diesel Power Plant which was acquired from PSALM in April 2009 and photocopy of all official receipts issued by Salcon Power Company representing payments by NGCP.

In addition, may we also be furnished photocopy of official receipts representing its succeeding payments to PSALM of the balance of the US\$ 3.9 Billion bid price for the concession to operate the transmission system of the National Transmission Corporation?

These requests are based on our desire to know whether consumers are adequately protected from possible unjust and unreasonable transmission rates knowing that the cost of this contract is ultimately passed on to the electricity consumers and whether the payments of NGCP to PSALM for the concession to operate the transmission system benefit the consumers in terms of reduced power rates.

We look forward to your immediate and favorable response.

Thank you so much.

Very truly yours,

**PETE L. ILAGAN**  
*President*
