**THE HONORABLE COMMISSIONERS**  
Energy Regulatory Commission  
16<sup>th</sup> Floor, Pacific Center Building  
San Miguel Avenue, Pasig City

Attention: ERC Chairperson Zenaida Cruz-Ducut

Dear ERC Commissioners:

Greetings!

This pertains to our study of Camarines Sur IV Electric Cooperative, Inc (CASURECO IV) financial statements showing an over collection of **P35,107,574.00** from 2007 to 2009.

Our finding is based on this Honorable Commission's *Unbundling Decision* dated 05 August 2004 under ERC Case No. 2001-1000 granting CASURECO IV's annual revenue requirement of **P43,473,897.00** (net of purchased power cost).

To determine if CASURECO IV was getting its ERC-approved annual revenue requirement, NASECORE studied CASURECO IV's 2008-2009 annual reports and compared its ERC-approved annual revenue requirements against its actual annual revenues as shown in the table below:

**ERC Approved vs Actual Distribution Revenue**

Year	Total Revenue	Cost of Power	Actual Distribution Revenue	Approved Revenue-Unbundling	Over/ (under)
	(A)	(B)	(C=A-B)	(D)	(E=C-D)
2007	217,078,922.00	163,397,774.00	53,681,148.00	43,473,897.00	10,207,251.00
2008	205,027,298.00	144,129,645.00	60,897,653.00	43,473,897.00	17,423,756.00
2009	209,801,389.00	158,850,925.00	50,950,464.00	43,473,897.00	7,476,567.00
<b>Total Over/(Under)</b>					<b>35,107,574.00</b>

The table above clearly shows that CASURECO IV realized an accumulated over-collection in the amount of **P35,107,574.00** (net of purchased power cost) from 2007-2009. We still need to look into the 2010 annual report of CASURECO IV to find out if there are also over collections in the said year.

We find these over-collections alarming because we take this as an abuse of market power when CASURECO IV decided to deliberately keep to itself these over-collections instead of disclosing these by way of a petition to reduce its current rates but maintaining its

approved annual revenues, especially that CASURECO IV is *a non-stock, non-profit organization*.

It is a common industry knowledge that this increase in its annual revenues is attributable to the increase in its annual sales in kilowatt-hours and kilowatt from its captive customers owing to the increasing consumption of its customers and the reduction in its system loss. (emphasis supplied)

We also find this alarming because these CASURECO IV over-collections show that the Honorable Commission blatantly failed to closely monitor and review the operations of CASURECO IV to determine whether the annual revenue it granted CASURECO IV is what is actually being collected only from the consumers based on its approved annual cost of service including its system loss percentage which should be reflected if the utility is operating efficiently or not.

Had ERC done its primary duty of reviewing the annual revenues it granted CASURECO IV, it would have easily discovered these over-collections which NASECORE, on its own initiative, have discovered. It appears that ERC needs some reminding on its legal mandate of ensuring adequate promotion of consumer interests which basically revolves on determining just and reasonable rates.

Further, this ERC failure lamentably renders its approved annual revenues for CASURECO IV (the result of its exhaustive study to ensure the viable operations of the electric utility) inutile as it failed to use these to serve as its way of ensuring that the CASURECO IV rates it granted are just and reasonable.

In this regard, we urge ERC to immediately conduct a regulatory audit of CASURECO IV and reduce its rates so as to stop this over-collection and to immediately direct a refund of this over-collection.

We fervently hope ERC will swiftly act on this request based on its mandate to protect consumers from unjust and unreasonable rates.

Thank you so much.

Very truly yours,

**PETE L. ILAGAN**  
*President*
