THE HONORABLE COMMISSIONERS
 Energy Regulatory Commission
 16th Floor, Pacific Center Building
 San Miguel Avenue, Pasig City

Attention: ERC Chairperson Zenaida Cruz-Ducut

Dear ERC Commissioners:

Greetings!

This pertains to our study of Busuanga Island Electric Cooperative Inc. (BISELCO) financial statements showing an over collection of P7,342,770.00 from 2005 to 2009.

Our finding is based on this Honorable Commission's *Unbundling Decision* dated 14 July 2003 under ERC Case No. 2001-922 granting BISELCO's annual revenue requirement of P7,852,774.00 (net of purchased power cost).

To determine if BISELCO was getting its ERC-approved annual revenue requirement, NASECORE studied BISELCO's 2005-2008 annual reports and compared its ERC-approved annual revenue requirements against its actual annual revenues as shown in the table below:

ERC Approved vs Actual Distribution Revenue

Year	Total Revenue (A)	Cost of Power (B)	Actual Distribution Revenue (C=A-B)	Approved Revenue- Unbundling (D)	Over/ (under) (E=C-D)
2005	28,703,720.00	20,425,914.00	8,277,806.00	7,852,774.00	425,032.00
2006	29,564,965.00	20,862,132.00	8,702,833.00	7,852,774.00	850,059.00
2007	30,920,648.00	22,304,092.00	8,616,556.00	7,852,774.00	763,782.00
2008	32,057,726.00	22,017,113.00	10,040,613.00	7,852,774.00	2,187,839.00
2009	39,980,504.00	29,011,672.00	10,968,832.00	7,852,774.00	3,116,058.00
Total Over/(Under)				7,342,770.00	

The table above clearly shows that BISELCO realized an accumulated over-collection in the amount of P7,342,770.00 (net of purchased power cost) from 2005-2009. We still need to look into the 2010 annual report of BISELCO to find out if there are also an over collection in the said year.

We find these over-collections alarming because we take this as an abuse of market power when BISELCO decided to deliberately keep to itself these over-collections instead of disclosing these by way of a petition to reduce its current rates but maintaining its approved annual revenues, especially that BISELCO is *a non-stock, non-profit organization*.

It is common industry knowledge that this increase in its annual revenues is attributable to the increase in its annual sales in kilowatt-hours and kilowatt from its captive customers owing to the increasing consumption of its customers and the reduction in its system loss. (emphasis supplied)

We also find this alarming because these BISELCO over-collections show that the Honorable Commission blatantly failed to closely monitor and review the operations of BISELCO to determine whether the annual revenue it granted BISELCO is what is actually being collected only from the consumers based on its approved annual cost of service including its system loss percentage which should be reflected if the utility is operating efficiently or not.

Had ERC done its primary duty of reviewing the annual revenues it granted BISELCO it would have easily discovered these over-collections which NASECORE, on its own initiative, have discovered. It appears that ERC needs some reminding on its legal mandate of ensuring adequate promotion of consumer interests which basically revolves on determining just and reasonable rates.

Further, this ERC failure lamentably renders its approved annual revenues for BISELCO (the result of its exhaustive study to ensure the viable operations of the electric utility) inutile as it failed to use these to serve as its way of ensuring that the BISELCO rates it granted are just and reasonable.

In this regard, we urge ERC to immediately conduct a regulatory audit of BISELCO and reduce its rates so as to stop this over-collection and to immediately direct a refund of this over-collection.

We fervently hope ERC will swiftly act on this request based on its mandate to protect consumers from unjust and unreasonable rates.

Thank you so much.

Very truly yours,

PETE L. ILAGAN
President
